## Narrowboat Slipway and Dry Storage

As an alternative to the drydock experience our specialist narrowboat slipway offers a more flexible approach to getting your boat worked out of the water.

Currently suitable for narrowboats up to 65' in length, you will have up to a week to work your vessel on dry land in our compound which has running water and electricity.

We only charge for the number of days you are on dry land for, meaning there will always be time to deal with most unexpected jobs, but comfort in knowing you won't pay unless you need it

Our storage compound is suitable for DIY work carried out by the owner but not for other engineers or contractors engaged by you. Marine Surveyors engaged by you will be allowed subject to our written approval.

|  |  |
|--|--|
| Slip Out – only on a Tues, Weds or Thurs | £400                                     |
| Slip In – only on a Tues, Weds or Thurs  | £150 on a Tuesday, Wednesday or Thursday |
| Dry Storage                              | £42.50 a day, or £250 a week             |
| 1 day out and back in (for hull survey)  | £400                                     |

## Hull Blacking

In addition to Hauling your boat up the Slipway we can also offer professional hull blackings which we commit to;

Scrapping off algae and loose paint

Pressure washing to remove rust and remaining algae,

Rotary wire brushing using a grinder to remove any remaining rust and to give a key for the new bitumen to adhere to.

|  |                   |
|--|-------------------|
| Hull Blacking. Pressure wash, 2 coats of Bitumen | From £9.75 a foot |
|--|-------------------|

## Boat Lift-out and Dry Storage

|   |                      |
|---|----------------------|
| Boat Cranage – use of pads                    | £500                 |
| Boat Cranage – Full CPA lift from hired crane | Price on Application |

## Chandlery

We stock most common used items such as; leisure & starter batteries, engine oil, stern grease, toilet fluid, gear & control cables, Webasto & Mikuni diesel heater parts, Beta & Isuzu engine filters, belts, alternators, starter motors - plus many more items. If we haven't got it we can get it, just enquire at our reception.

## Joinery & Design

Specialising in joinery to a cabinet-making standard

Our workshop has specialised equipment and a dedicated team of highly skilled, qualified and experienced craftsmen, who strive for perfection and the high standards required.

We will visit your boat or a free (no obligation) assessment of your requirements. We can accommodate your mooring requirements whilst works are completed

Come to us for all your joinery needs; be it

- Doors, cratches and other external features
- Lining out, floors, and bulkheads
- Internal fittings and furniture; seating areas, bedrooms, shower rooms and kitchens with appliances
- Units to contain tele-communications, audio and television
- Top-boxes to contain solar panels to generate electricity for the boat.
- Or anything else
